Discover our passion for...

nature

All our floors are PEFC certified, this indicates that the wood comes from sustainably managed forests.

natural knots

Some of our floors have knots that are only partially filled, others have knots that are sanded by hand. All this is done to emphasize the liveliness of the wood.

design

We aim for the perfect balance between the type of wood, the grading, the colour, structure, finishing and plank size.

authenticity

By using different treatment techniques such as fuming and special staining, each plank has a unique colour. Because of this, we create a lively colour variation between the planks. These effects bring the authentic character of nature into your home.

artisan characteristics

Saw cuts are tangible evidence of pure artisanal craftsmanship. The manually applied saw cuts vary both in depth, width and interspace. Not a single plank is identical!

craftsmanship

A Variano or Intenso plank consists of multiple small boards and is composed by hand, with eye for details.

details

Our reclaimed look shows sawcuts, height differences and gaps.

perfect finishing

Some of our floors look as matt as untreated wood. Nevertheless, they are easy to maintain.

wooden structures

We brush some of our floors to accentuate the natural grain of the wood and create an extra authentic feel.

Authentic beauty meets easy living

Maximum pleasure, easy maintenance

The highly advanced finishes in lacquer or oil make your floor highly wear, stain and scratch resistant. Moreover Quick-Step's unique bevel technology prevents moisture from seeping through the planks and keeps the bevels in tip-top shape for many years to come. The combination of these Protect+ features with our authentic floor designs guarantees a long-lasting beauty and quality you can enjoy for many years to come.

Beauty that never fades

You can rely completely on our maintenance products to preserve your floor's beauty. Discover them on page 34 - 35.

Quick-Step Parquet, the beauty of nature

Welcome the beauty of nature into your home by choosing a 100% real wood parquet floor from Quick-Step. The different dimensions of the planks and their wide variety of natural colours and finishes blend perfectly with every style and interior. We pay extra attention to the knots, the grain and colour of the planks so you get to enjoy the warmth of a handcrafted wooden floor.

A perfectly installed floor is just a few clicks away

A parquet floor that's easy to install? Quick-Step makes it possible. Whether you decide to do it yourself or have it done by a professional, your new floor can be installed in no time, thanks to the Uniclic® Multifit system. The system enables you to click the planks together, using three different methods. Take a look at page 29 and learn more about this revolutionary installation system.

Another great advantage: there's no need for post-installation work. No sanding, no dust, no varnishing, oiling or painting. As soon as your Quick-Step Parquet floor is installed, it's yours to enjoy for years to come.

How to install your parquet floor

Installing a Quick-Step Parquet floor is very easy. Don't believe it? Let us help you out with our installation videos at bit.ly/ytquickstep

Authentic beauty that lasts a lifetime

As diverse as Quick-Step Parquet floors may be, they all have one thing in common. They withstand time and only grow in natural beauty thanks to the Protect+ features. On top of that, they are very easy to maintain.

Sliding chairs, high heels, dirty shoes,... your floor gets put to the test on a daily basis. That's why Quick-Step's Parquet floors are coated with high-quality finishes in lacquer or oil. They can be slightly glossy or retain the typical matt look of untreated wood, but with significantly higher wear, stain and scratch resistance in either case.

Spilled something? Just wipe it up with a moist cloth. Thanks to extra liquid-repellent protection on the bevels, you don't have to worry about bevels becoming distorted because of water.

What's more, a Quick-Step Parquet floor is very easy to keep looking just like new. With the right products, it will stay beautiful and last even longer. Discover our entire range on page 14 - 15.

Create your own living space

More inspiration on
www.quick-step.com

A beautiful interior starts with a good foundation. The floor could be considered as the fifth wall and therefore it should not be overlooked. Whatever your style, whatever your room, Quick-Step has the right floor: from light, clean floors to warm brown classics and even reclaimed floors with knots and cracks. We will help you to find your perfect floor!

The detail makes the difference

Quick-Step's Parquet collection is made with real oak, and each floor has its own unique look and feel. By combining the careful selection of grading and structure with innovative coatings and finishes, we ensure that all elements of our floors are in perfect harmony. Whatever you're looking for, we have the right floor for every style and every room.

Grading

We have a unique grading system that sorts our floors into three different categories. It gives you an idea of how your floor will look.

Masters of our craft

At Quick-Step, we're passionate about the beauty of wood. That's why we only use the finest wood for our parquet floors. We work with traditional, high-quality materials and handle them with the greatest care and attention, yet we never cease to innovate when it comes to interior design. Learn more about our passion on page 4 - 5.

Nature

Wood with small knots. Variation in colour and structure.

Marquand

Wood with knots. Lively variation in colour and structure.

Vibrant

Wood with large knots and cracks. Lively variation in colour and structure with a rustic appearance.

	COLOUR			
				
	All sapwood is colour stained to match the general colour tone of the floor.	All sapwood is colour stained to match the general colour tone of the floor.	All sapwood is colour stained to match the general colour tone of the floor.

Treatment

Brushed Deep Brushed

Brushing accentuates the natural grain structure of the wood plank and adds depth.

Saw cuts

Random saw marks show the craftsmanship and character of the wood planks.

Natural knots

On some floors the knots are not fully filled. Some of them are even manually sanded to emphasize the liveliness of the wood.

Reclaimed look

Our Variano and Intenso floors are designed with a reclaimed look: showing saw cuts, height differences and gaps. See p. 24-25.

Design colours

By using different treatment techniques such as fuming and staining, each plank has a unique colour.

Finishing

All Quick-Step Parquet floors are prefinished in the factory, which means no oiling or lacquering is needed after installation.

1 Oiled

Oiled finish

Extra Matt Oiled finish

- 2 layers of high quality oil.
- Brings out the authenticity of real wood.
- Can be renewed and repaired with Quick-Step maintenance products.

2 Lacquered

Extra matt finish

Matt finish

Silk finish

- 7 layers of protective lacquer.
- Highly scratch and wear resistant. Protects against water and household chemicals.
- Easy to clean wooden floor.

Extra Matt Oiled Finish **NEW**

The new extra matt oil finish highlights the nude and authentic character of the wooden floors.

Extra matt finish **NEW**

The extra matt lacquer finish combines the look of an untreated floor with the advantages of a lacquered floor.

The Variano and Intenso ranges are a unique Quick-Step creation. The planks consist of multiple small wooden boards of different length, width and finishes- rough and smooth, with large and small knots, one slightly straighter than the next, perfectly even or with a saw cut. These small boards are handpicked and manually put together like a puzzle, creating splendid eye-catchers with a distinct reclaimed look.

STEP 1 INSTALLATION

Install your floor without hassle!

Laying a Quick-Step floor is so easy thanks to the patented world-famous Uniclic® Multifit click system. This system is highly user-friendly, quicker to install and a lot more solid than other systems. A Quick-Step floor makes installation easy, even in the tightest corners or under radiators and doors.

1 Install your floor anywhere, even on floor heating

Quick-Step Parquet floors are perfect for installing over floor heating, whether you choose for a glued down or floating installation.

2 Easy installation thanks to the drop-down click system

Our Uniclic® Multifit click system is developed especially for parquet floors, making them fast and easy to install.

3 Installation tools for every situation

Quick-Step accessories such as our installation set or hand saw help make your floor installation easy.

Discover our installation videos on www.quick-step.com

*Intenso: compatible with the Uniclic® click system.
Discover the installation instruction on
www.quick-step.com

Simply choose click or glue

Whether you opt for a glued down or a floating installation, Quick-Step has the perfect solution.

GLUED DOWN

Why Quick-Step® Parquet Glue?

1 Maximum sound reduction

Reflected walking sound in the room is reduced to a minimum.

2 Resistant to humidity

The Quick-Step Parquet Glue has a good resistance to humidity.

3 Highly elastic

The Quick-Step Parquet Glue is highly elastic. Your floor can breathe and expand with any temperature variation.

4 Ideal for floor heating

Gluing your floor is the best solution for floor heating systems.

Quick-Step® PARQUET GLUE

16kg: QSWGL16 = for +/- 16 m²
use 1-1,2 kg per square metre engineered wood

Quick-Step® PARQUET TROWEL QSWB11

The Parquet glue trowel ensures the perfect glue consumption per m². To be ordered separately.

FLOATING

Why a Quick-Step® underlay?

1 Permanently sound-absorbing

Quick-Step underlays maintain their initial thickness over the years. You may rest assured that they will continue to dampen sounds both in the room in which they're installed and in the room below.

2 Ideal for Uniclic® Multifit

All Quick-Step underlays offer a stable base which protects the Uniclic® Multifit system against heavy furniture and heavy short term loads such as high heels.

3 Levels out irregularities

A Quick-Step underlay creates a firm, level base for your new floor.

4 Excellent damp protection

The integrated Damp Proof Membrane (DPM) protects your floor from rising damp.

Floor heating: Every Quick-Step Parquet floor is suitable for installation over traditional floor heating. Keep in mind:

- The best result will be obtained when gluing your Parquet floor with Quick-Step Parquet Glue.
- As a damp-resistant screen cannot be used in combination with a glued down wood floor, sudden or large temperature changes might cause condensation.
- For floating installations, we only advise floor heating in combination with the Quick-Step Silent Walk underlay. This underlay stops rising damp or condensation.

A Quick-Step® underlay for every situation

An underlay is an absolute necessity when laying a floor. Installing the right underlay has a major impact on the final look, quality and comfort of your Quick-Step Parquet floor. The high-quality underlays are easy to install, create a level base for your new floor and provide excellent acoustic and thermal insulation. The Quick-Step underlays offer a stable base protecting the Uniclic® & Uniclic® Multifit systems. Moreover, they ensure protection from rising damp.

<p>💡 Use this underlay in combination with tape: NETAPE50</p>				

Please note: It is important to use a Quick-Step underlay or Quick-Step Parquet glue to preserve the quality of your floor. When installed and maintained in the right way, Quick-Step can offer a warranty on the Quick-Step floor and Uniclic® Multifit system. Ask your dealer for a genuine Quick-Step underlay or Quick-Step Parquet glue and visit www.quick-step.com to read our warranty conditions.

How to install your floor?

1 Drop down *

To quickly install a large area.

Click the panel in the long side, slide your floorboards towards each other on the short side and press down.

*Not applicable to Intenso Range.

Discover the installation instruction on www.quick-step.com

2 Angling

To install the first row of planks.

Click the panels first on the short side and click the long sides together.

3 Horizontal insertion

To install in difficult areas.

Unlike many other brands, Quick-Step Parquet planks can also be inserted horizontally. This is very handy when installing the last row of planks, or in places where it is difficult or even impossible to tilt them (under door frames or radiators, for example).

Installation tools

Quick-Step® INSTALLATION SET QSTOOL

Contents: Quick-Step tapping block, metal crowbar, adjustable spacers.

Install your parquet floor in an easy and professional way with the handy Quick-Step installation set.

Quick-Step® HAND SAW QSTOOLSAW

With the help of the Quick-Step hand saw floors can be fitted perfectly underneath door frames.

STEP 2

FINISHING

Finish perfectly

Finish your floor perfectly with the Quick-Step skirtings and profiles.

1 Matching colours

Quick-Step offers skirting boards with perfectly matching colours for every floor.

2 Real veneer

Quick-Step skirting boards are finished with a quality veneer surface. This means they can really take the rough and tumble of everyday life!

3 Quick-Step® warranty

Quick-Step skirting boards come with the same warranty as Quick-Step floors.

Easy to install

**Quick-Step®
TRACK**
240 cm x 0,8 cm x 2,7 cm

Our made-to-measure track allows you to install skirting boards quick and easily. Simply attach the track to the wall with screws or Quick-Step One4All glue and then just click the skirting boards onto it. Afterwards, they can be easily removed, which is ideal when you need access to cables.

**Quick-Step®
ONE4ALL GLUE**
Contents: 290 ml

The skirting boards and profiles can be installed swiftly and securely with the Quick-Step One4All glue.

With one tube of One4All glue you can fix approximately 15 m of skirtings to a wall.

Skirting boards

Quick-Step®
SCOTIA
240 x 1,7 x 1,7 cm

Quick-Step®
PARQUET SKIRTING BOARD
240 x 1,6 x 8 cm

Skirting board with a groove on the back to hide phone or computer cables.

Paintable skirting boards

The paintable skirting boards with Incizo® technology are very easily cut to fit the desired height (thanks to the preapplied cuts). Once they are fitted, you can paint them or just leave them white.

Quick-Step®

FLEXIBELE SKIRTING
1,4 cm x 4 cm (to be cut to the desired length)

Also available in a non-flexible version to finish your room in the same style (length 240 cm: QSPSKR4PAINT).

Finishing profiles for floor and stairs

Quick-Step's Incizo® profile is a multifunctional finishing tool. One and the same profile can be used for all the finishes of your floor and stairs, in the matching colour. Simply cut the Incizo® basic profile to the shape required using the supplied splitter.

Quick-Step® Incizo®: five questions, one answer

1 How can I join two floors of the same height?

Use the Incizo® profile cut as an expansion profile.

2 How can I solve variations in height from one floor to another?

Use the Incizo® profile cut as an adapter profile.

3 How do I finish my floor along a wall or a window?

Use the Incizo® profile cut as an end profile.

4 How can I connect my floor to a carpet, and have a beautiful finish?

Use the Incizo® profile cut as a transition profile.

Finishing tools

Quick-Step®
HYDROKIT
QSKITTRANSP 310ml

The Quick-Step Hydrokit is a transparent silicone for an invisible and waterproof finishing of skirting boards, profiles,...

Discover our installation videos on www.quick-step.com

5 What about the finishing of my stairs?

You can cover your stairs or steps with Quick-Step planks and finish in the style of your choice with the Incizo® profile as a stair nose.
